Forest Products ³	944,373	826,030	630,820	575,276	425,029

¹ Revised.² Preliminary.³ Source: Harvest of Forest Products Report, Mississippi Cooperative Extension Service, Forestry Department. The total includes receipts for all Mississippi landowners, not just farmers.

With this table, USDA's National Agricultural Statistics Service Mississippi Field Office has begun reporting Forest Products on a "standing" value or "stumpage" value. Previously, we reported Forest Products on a "delivered" value. Delivered values include the value of transportation of timber to the sawmill and therefore do not represent the "first point of sale". All other agricultural products have always been on a "first point of sale" basis.
